

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

P R E F A C E.

OWING to circumstances beyond the control of the Editor, he has been reluctantly compelled to omit several features in the present edition, which he had expected to offer as of value to those who might have occasion to consult the work. For the same reason the issue of the book has been delayed until the close of the year.

While thanking those who have so promptly and kindly replied to his queries, he regrets to be compelled to say that a very large number have either wholly neglected his requests for information, or have responded at a date too late to be of use.

Every effort has been made to have the data given corrected to the latest moment, and the Editor will be obliged for all information that will render more easy the preparation of the next edition.

The College of Physicians of Philadelphia,

HALL NORTHEAST COR. OF THIRTEENTH AND LOCUST STREETS,

Was incorporated in 1789, and consists of Fellows and Associates. The former must be practitioners of medicine in good standing, residents of the city of Philadelphia, and over twenty-four years of age. The latter must be distinguished practitioners of medicine residing beyond the limits of the city; they must not exceed fifty in number, and twenty of them may be foreigners. "The objects of this College are to advance the science of medicine, and thereby to lessen human misery, by investigating the diseases and remedies which are peculiar to this country; by observing the effects of different seasons, climates, and situations upon the human body; by recording the changes which are produced in disease by the progress of agriculture, arts, population, and manners; by searching for medicines in the American woods, waters, and in the bowels of the earth; by enlarging the avenues to knowledge from the discoveries and publications of foreign countries; and by cultivating order and uniformity in the practice of physic." (*Charter*, § 2.)

The initiation fee to the Fellows is twenty-five dollars; the semi-annual contribution five dollars, payable in January and July.

A stated meeting of the College is held on the first Wednesday evening of each month. The Library is open for the use of the Fellows daily (Sundays and legal holidays excepted) from 11 A.M. to 3 P.M.

The Pathological Society of Philadelphia.

ORGANIZED IN 1857.

Its objects are the "cultivation and promotion of the study of pathology by the exhibition and description of specimens, drawings, and other representations of morbid parts." (*Constitution*, Art. II.) It holds its meetings on the second and fourth Thursdays of every month, except July and August, and except when they happen to be public holidays or Christmas Eve, in the lower hall of the College of Physicians, at 8 P. M.

Its membership, to which any respectable physician is eligible, is composed of residents, non-residents, and correspondents. The resident members pay an initiation fee of five dollars and an annual contribution of four dollars.

The contribution of newly elected members to the *annual dues* is rated according to the dates of their election, so that members elected in March are required to contribute for that year three dollars, those in June two dollars, and those in October one dollar. Members elected in December are liable only for the dues of the succeeding years.

The Mutual Aid Association of the Philadelphia County Medical Society.

INSTITUTED MAY 6, 1878.

INCORPORATED SEPTEMBER 25, 1878.

The object of this Association is the establishment of a Beneficiary Fund for the relief of such members as die leaving their families unprovided for, as well as for the temporary relief of such members as, by long-continued sickness, are compelled to seek its aid.

Its connection with the Philadelphia County Medical Society is only that due to its membership; thus excluding unworthy applicants for assistance and excluding also such as would become members of the Association to subserve their own ends.

Nine Directors are the Trustees, and have the exclusive control of the funds of the Association, and three of their number serve as a Committee on Benevolence, and decide

on the propriety of all applications for aid. The 'Permanent Fund' is most carefully invested, and no portion of it can be disbursed until the whole amount reaches at least five thousand dollars. It now (October, 1884) needs \$1800 to reach an amount that will permit of its benevolent action.

Each widow of a deceased member, and all orphan or half-orphan children under sixteen years of age, and, in special cases, the aged father, widowed mother, or single sister, who had been dependent on a deceased member, may receive assistance, at the discretion of the proper authorities of the Association and in accordance with its By-laws. Annuitants receive a *pro rata* sum of the *income* of the Permanent Fund when the fund permits it.

The payment of fifty dollars constitutes a Life Member. One hundred dollars constitute any one a Benefactor, with the privilege of naming his family physician as a life-member.

Officers of the Association elected annually in May.

**Woman's Hospital Training School for
Nurses.**

NORTH COLLEGE AVENUE AND TWENTY-SECOND STREET.

In 1872 the Training School was endowed, and a course of lectures on nursing instituted, to be given by the Resident Physician in the spring and autumn of each year, to supplement the practical training in the wards. A Diet Kitchen was also established for instruction in the preparation of food for the sick. Certificates of the Hospital, signed by the Resident Physician, were given to nurses who had passed satisfactorily through the term of instruction in the School.

Upon passing a satisfactory examination before Drs. S. Weir Mitchell and Albert H. Smith, they receive the diploma of the School, signed by the examining board and the officers of the Hospital.

In addition to the regular course of Woman's Hospital

lectures on nursing, lectures on special subjects are given by Philadelphia physicians, among whom may be mentioned Drs. S. Weir Mitchell, Albert H. Smith, Harrison Allen, W. W. Keen, James Tyson, James C. Wilson, Edward E. Montgomery, John H. Ashhurst, Jr., Edward T. Bruen, William Pepper, and others.

The Training School is prepared to furnish, on application to the Hospital, trained nurses for out-practice, and a list of graduated nurses is kept on the books of the Hospital, to which physicians and others seeking nurses are privileged to refer.

The Medico-Chirurgical College.

LOCATION BROAD AND MARKET STREETS.

This institution educates Students in Medicine by graded courses, extending over a period of three years; a preliminary examination is made at time of entrance. An auxiliary literary course is conducted during the spring months, which can be attended when preferred, and the entrance examination deferred until the commencement of the Junior Year. This institution aims to offer the highest possible curriculum. Special schools to the number of six are grouped about the central institution, in which the specialties are studied. Studies in Medicine and Surgery, by means of syllabi and private instructors, are invited to be made preliminary to matriculation. The President of the College just elected is Dr. James E. Garretson; the Dean is Dr. Wm. S. Stewart.

The Professors, who are assisted by a large teaching

corps, are as follows: Surgery, General and Special, by Drs. James E. Garretson, H. Earnest Goodman, Peter D. Keyser, and George E. Stubbs; the first of the Oral Hospital, the second and third of the Orthopædic and of Wills Hospitals, and the last of Charity Hospital; Chemistry, Dr. S. B. Howell; Practice of Medicine, Dr. Wm. F. Waugh; Obstetrics and Gynæcology, Dr. William S. Stewart of Charity Hospital; Pathology and Materia Medica, Dr. A. S. Gerhard; Diseases of the Nervous System, Dr. Hugo Engel; Physiology, Dr. T. C. Stellwagon.

Special Schools are the Philadelphia School of Anatomy, the Oral Hospital, the Philadelphia Dental College, a Department of Auxiliary Literature, and Departments in Ophthalmology, Dermatology, and Philosophy.

Announcements affording particulars are obtained by addressing a postal to the Dean, Eighteenth and Arch streets.

The Philadelphia School of Anatomy.

LOCATION TENTH AND ARCH STREETS.

This School is the dissecting establishment of the Medico-Chirurgical College, of the Philadelphia Polyclinic College for Graduates in Medicine, of the Oral Hospital, and of the Philadelphia Dental College. It invites as well, with its accommodations, practitioners at large desiring to refresh themselves in anatomical knowledge.

The dissecting fee is \$10, and \$1 for each part used. The fee for Practical Surgery, including instruments, is \$10, and \$1 for each part.

The instructors are Dr. James E. Garretson (honorary professor), Dr. Lewis W. Steinbach, and Dr. Henry C. Boenning.

Tickets and information are obtained by application at the rooms, or to Dr. Steinbach, 716 Franklin Street.

Pennsylvania School of Anatomy and Surgery.

The Philadelphia College of Pharmacy,

145 NORTH TENTH STREET,

Was incorporated in 1822 "for the purpose of cultivating, improving, and making known a knowledge of Pharmacy, its collateral branches of science, and the best modes of preparing medicines and their compounds; and of giving instruction in the same by public lectures." (*Preamble to Charter.*)

It is supported by the initiation fees and contributions of its members; the school connected with it by the fees paid by students.

The members of the College are active, honorary, and correspondent. Any graduate in Pharmacy, conforming in his professional conduct to the code of ethics, may be elected a member by the Board of Trustees. Non-graduates, who have served a regular apprenticeship and conforming as above, may in like manner be elected after passing an examination before a committee, or after being established in business for at least six years.

The initiation fee is five dollars; the annual contribution is also five dollars.

The honorary members are elected by the College on the recommendation of four members; they are "such persons as, from their knowledge of *Materia Medica*, Pharmacy, and their collateral branches of science, shall in the opinion of the College merit that distinction."

Correspondent and honorary members have the same privileges as resident members, except that they have no right to vote or to hold office in the institution.

Every member of the College, on payment of two dol-

lars, is entitled to a certificate of membership, to be returned on his ceasing to be a member.

The School of Pharmacy is under the control of the Board of Trustees, who appoint Professors to lecture on *Materia Medica*, Chemistry, Theory and Practice of Pharmacy, and other branches of science; also a Committee on Examinations, who, in conjunction with the Professors, decide as to the fitness of candidates for the degree. Upon the recommendation of the Committee the Board may, by vote, confer the degree of Graduate in Pharmacy.

Business meetings of the College are held on the last Mondays in March, June, September, and December; pharmaceutical meetings on the third Tuesday in every month, from October to May.

Meetings of the Board of Trustees first Tuesday in each month.

The members and graduates of the College are entitled to attend and participate in the proceedings of the Pharmaceutical meetings, and to bring with them any strangers interested in Pharmacy and its kindred sciences.

A journal of such transactions of the College as may be ordered for publication, of original essays and of selections from scientific periodicals and books, is published monthly. It is called *The American Journal of Pharmacy*. Professor J. M. Maisch is the editor, and H. H. Wolle, business editor. Hours, 10 to 11 A. M., in College building.

HOSPITALS.

The Pennsylvania Hospital

Was founded in 1750, and chartered in 1751, the corporators being styled "The Contributors to the Pennsylvania Hospital."

The Contributors (who become such on the payment of ten pounds, or upwards, to the Institution) meet annually on the first Monday in May to elect a Board of twelve Managers and a Treasurer. These Managers have charge of the affairs, not only of the Hospital in the city, but also of that for the insane in West Philadelphia. They elect all the officers except the Treasurer.

The Medical Staff of the Hospital in town consists of four attending Physicians, four Attending Surgeons, and four Resident Physicians—two in the surgical wards, and two in the medical. The term for each resident is sixteen months. An apothecary lives in the house, and has charge of the preparation and dispensing of medicines. All of these gentlemen, except the last named, render their services gratuitously. Two of the surgeons are on duty at a time, for a term of six months; the physicians serve singly for periods of three months. Each physician and surgeon pays a daily visit in the forenoon. Clinical lectures are delivered by them in the amphitheatre, from 10 A. M. to 12 M. on Wednesdays and Saturdays, and to a class of women on Tuesdays.

“That insane persons may be placed in a hospital for the insane by their legal guardians, or by their relatives

and friends in case they have no guardians, but never without the certificate of two or more reputable physicians after a personal examination made within one week of the date thereof, and this certificate to be duly acknowledged and sworn to or affirmed before some magistrate or judicial officer, who shall certify to the genuineness of the signatures and to the responsibility of the signers." (*Law of April, 1860.*)

None but recent cases are admitted.

For private patients, or those supported by themselves or friends, the price varies from \$3.50 to \$5.00 a week. For those supported by townships or counties the price is \$3.00 a week.

Preparatory to the admission of a patient (unless when committed by order of a court) the Superintendent shall be furnished with the certificate as above, with a request from a near relative or friend that the patient may be received into the Hospital, and a bond with satisfactory security for the payment of board and other expenses while in the Institution. All private patients must make a payment of thirteen weeks' board in advance, and if taken away without or against the advice and consent of the Superintendent within that period no part of said amount shall be refunded.

Whenever a patient is sent to the Hospital by order of a court, etc., the order shall be lodged with the Superintendent.

Those who may bring a patient with such a warrant will be required to pay at the time of the admission of the patient seventy-eight dollars.

**Hospital of the Protestant Episcopal Church
in Philadelphia.**

2649 NORTH FRONT STREET.*

Founded July 18, 1851.

This is a general hospital, supported by interest from moneys invested (received by bequests or donations), contributions from churches and individuals for the maintenance of free beds, board paid by patients, together with Thanksgiving offerings, and annual and special contributions.

It is under the control of a Board of twenty-four Managers, besides the Protestant Episcopal Bishop of the Diocese, who is *ex-officio* their President. The contributors, who become such by paying fifty dollars at one time into the treasury of the Hospital, choose every year eight gentlemen to serve as Managers for a three years' term.

The Board of Managers choose annually four Attending Surgeons and four Attending Physicians to serve for three months each in his turn. Four Resident Physicians, serving sixteen months each, and an Apothecary, constitute the rest of the Medical Staff. The two Junior Resi-

dent Physicians have charge of the Dispensary, under the direction of the Dispensary Staff, which consists of four physicians and four surgeons.

Any individual or any church may, by the annual payment of two hundred and fifty dollars, acquire the right to one bed in the hospital, for a case, curable or incurable, provided that such case requires medical or surgical care, does not call for more than ordinary attendance, and is of such a nature as not to disturb the peace and quietness of the other patients. These beneficiaries are admitted upon orders from the parties maintaining the beds, or their agents.

Persons suffering from acute disease, not contagious or infectious, may be admitted by an order from the physician or surgeon on duty. "Recent accidents" are admitted at once, if brought to the hospital within twenty-four hours after the receipt of injury.

A large number of out-patients are prescribed for at the Dispensary, in the basement, daily (Sundays excepted), in the forenoon.

Philadelphia Hospital.

WOODLAND AVENUE (DARBY ROAD) BELOW WALNUT STREET.

CITY OFFICE, 42 NORTH SEVENTH STREET.

This hospital is supported by the city, and, like the Almshouse, of which it is a department, is under the charge of the "Board of Guardians for the Relief and Employment of the Poor of the City of Philadelphia." It embraces medical, surgical, and obstetrical wards, together with a Children's Asylum. The Insane Hospital

is under the charge of a Medical Superintendent, with assistants. The medical staff comprises eight surgeons, eight physicians, eight obstetricians, resident physicians, an ophthalmologist, a neurologist, a dermatologist, a pathologist, and a microscopist.

Out-door relief is afforded to the poor upon application to the visitors of the various districts. For admission to the Almshouse, application should be made to the Guardians of the Poor.

Reports are published yearly.

The German Hospital of Philadelphia.

S. W. CORNER OF GIRARD AND CORINTHIAN AVENUES.

Incorporated April, 1860. Opened for the reception of Patients
November, 1866.

The members of this corporation are such persons as may be elected by ballot, pay five dollars admission, and three dollars annually ; fifty dollars paid in one sum constitutes a life-member ; one thousand dollars constitutes a life-member, with a right to have constantly one patient in the wards. Corporators who are "citizens above the age of twenty-one years" are eligible as managers, but must speak the German language.

Any association or corporation, paying one hundred dollars or more in one sum, may acquire one vote at the annual election. Every charitable, beneficial, or other corporation or association, contributing with the assent of the Board of Managers the sum of fifteen hundred dollars, is entitled to have one of its sick members constantly in

the wards on its recommendation, and on payment of the further sum of one hundred and fifty dollars annually, such association or corporation has the privilege of the admission of another patient.

The medical officers must "speak the German language with facility."

Patients are admitted without exclusion of nationality, creed, or color. The Hospital has now, with the new extension, accommodations for one hundred and thirty sick persons.

Patients to be admitted into the Hospital (except in cases of recent accident) must be residents of the city of Philadelphia, or immigrants who have not acquired a permanent residence; if poor, they are treated gratuitously.

For pay patients the charge is four to six dollars a week, or more in special cases, as decided by agreement between the applicant and the steward, with the consent of the Visiting Committee. Payment must be made, or security given, for two weeks in advance. Unmarried persons, by regular monthly payments of twenty-five cents, can acquire the right of free admission to the Hospital in case of sickness. The right is lost by three consecutive failures to pay the contributions.

The Jewish Hospital of Philadelphia

Is located on Olney Road near York Pike, Twenty-second Ward. It is accessible by the North Pennsylvania Railroad to Tabor Station, is about two squares west of station, or, in driving out, take Broad Street to its terminus, and then into York Pike. This Hospital is free for the alleviation of the sick and wounded of every *creed, color, sex, or nationality*; in connection with it is the Asylum for aged and infirm Israelites.

Cases of accident are admitted at any time without permit; but all cases of sickness (excepting those of a contagious or infectious nature, which are never admitted) require a permit from the Committee of Admission, to be signed by two of their members (seven in number, residing or having offices in central locations); this committee require a certificate from the attending physician as to the nature of the disease, etc., before granting a permit; the resident physician in cases of emergency requiring immediate treatment can admit without it. The Hospital is free to all, but persons who desire to pay are charged a moderate sum.

The Presbyterian Hospital in Philadelphia.

POWELTON AVENUE AND THIRTY-NINTH ST., WEST PHILADELPHIA.

All the members of the Philadelphia Presbyterian Alliance, and all other persons who shall contribute to the Hospital the sum of thirty dollars or more yearly, or the sum of five hundred dollars at one time, are members of this corporation, and are entitled to vote at the annual election for trustees.

The government of the Institution is vested in a Board of Trustees, consisting of twenty-four persons, not more than nine of whom are ministers of the gospel, in addition to the President of the Philadelphia Presbyterian Alliance, who is *ex-officio* a trustee and President of the Board. In the event of there being a vacancy in the

Presidency of the Alliance, the Board choose one of their own number to be president during such vacancy.

No person is eligible to the office of trustee who is not a member in full communion with a church connected with the Presbytery of Philadelphia or of Philadelphia Central.

The Medical Board consists of at least four Attending Surgeons, six Attending Physicians, two Physicians for diseases peculiar to women, two Ophthalmic Surgeons, two Pathologists, and one Aurist, who give their attendance regularly at the Hospital at such seasons as may be agreed upon by themselves. In the out-patient department of this Hospital there are two surgeons and two physicians.

The Physicians and Surgeons have power to appoint, with the approval of the Trustees, a sufficient number of students of medicine, or graduates, who shall visit the wards with the Attending Physician or Surgeon on duty, who shall keep an accurate record of all cases designated by them, and from which number the Resident Physician shall ordinarily be elected.

The following classes of persons are admitted :—

Those who have been wounded, or otherwise injured, shall be received at all hours, subject to such rules as the Board of Trustees may from time to time enact ; provided always, the patient be brought to the Hospital within twenty-four hours after the accident, in all cases where the application for admission has been practicable within that time ;

Those laboring under curable diseases, able and willing to pay their board ;

Poor patients, whom the Visiting Committee may deem fit objects of charity.

The Physician or Surgeon on duty shall have the power of admitting poor or charity patients in their respective wards, in such numbers as may hereafter be designated by the Board of Trustees or Visiting Committee.

No person having any incurable, infectious, or contagious disease shall be admitted to the Hospital.

The Superintendent shall, when practicable, be a regularly graduated physician.

St. Joseph's Hospital.

SEVENTEENTH AND GIRARD AVENUE.

ESTABLISHED IN 1849.

This institution is supported by pay from patients and by voluntary contributions, and is under the control of the Sisters of Charity. It is divided into Surgical, Medical, and Obstetrical wards.

In addition to the public wards, there are a number of handsomely furnished private rooms, which can be procured at various prices, by persons desirous of extra accommodations, where they can enjoy all the comforts of a well-regulated home, together with all the benefits to be derived from such an institution. The patients in these private rooms have the privilege of selecting their own medical attendant. Physicians and surgeons who may have patients at hotels, boarding-houses, or private houses can avail themselves of this opportunity by sending such patients to this institution.

Patients of all creeds and climes, except such as are afflicted by contagious diseases, are admitted. Although this Hospital is ranked among the Catholic charities of this city, the inmates can avail themselves of the services of spiritual advisers of their own selection; and their wants, if destitute, are gratuitously supplied.

The cost of board in the wards for pay patients is \$5 per week.

Application for admission may be made at the Hospital, or to the medical or surgical officer on duty. Recent accidents are admitted at once into the wards.

Surgical advice is given gratis on Mondays, Tuesdays, Thursdays, and Fridays, at 11 o'clock A. M.

Diseases of the Eye are treated on Wednesdays and Saturdays, at 11 o'clock A. M.

SPECIAL HOSPITALS.

The Municipal Hospital.

LEHIGH AVENUE AND TWENTY-FIRST STREET.

THIS hospital is erected on the square of ground bounded by Lehigh Avenue, Huntingdon, Twenty-first, and Twenty-second streets. The building was formally accepted by the Board of Health of the City of Philadelphia, April 27, 1865.

The hospital is maintained by appropriations made by the City Councils. It is under the management of a physician-in-charge, appointed by the Board of Health. The diseases treated are smallpox, yellow fever, typhus fever, scarlet fever, cholera, epidemic cerebro-spinal meningitis, relapsing fever, and occasionally measles, and chicken-pox.

Upon receiving the certificate of a physician that a patient has one of the above-enumerated diseases, and that his circumstances are not such as to admit of his being properly cared for at home, the chief clerk, or any member of the Board, issues an order of admission; whereupon the hospital ambulance is sent to remove the patient. If he is able to pay, one dollar per day will be charged; if he is poor, no charge will be made.

There is no compulsion in regard to entrance into the hospital, except under extreme circumstances.

Physician-in-charge: Dr. William M. Welch.

The Wills Eye Hospital.

RACE STREET, ABOVE EIGHTEENTH.

Founded April 2, 1832.

This Institution is supported by a fund bequeathed by the late James Wills, a merchant of this city, and by voluntary contributions. It is under the general control of the Directors of City Trusts,* and immediately supervised by a committee of five of said Board.

Admission of indigent patients, without regard to creed or color, may be obtained by personal application to any of the surgeons, all of whom are on duty during the entire year.

A daily clinic is held from 2 to 3 P. M. for out-door patients, Sundays excepted.

Four surgeons are in attendance every other day at 2 o'clock, as follows :—

Mondays, Wednesdays, and Fridays : Drs. Harlan, McClure, Norris, and Schell.

Tuesdays, Thursdays, and Saturdays : Drs. Hall, Goodman, Keyser, and Strawbridge.

The clinics are open to all regular practitioners and students of medicine who desire to study the diseases of the eye.

**The Philadelphia Orthopædic Hospital and
Infirmary for Nervous Diseases.**

INCORPORATED 1867.

This Institution occupies a large building at the north-west corner of Seventeenth and Summer streets. It is sustained by voluntary aid, and contains four rooms for private patients and twenty-five ward beds.

The hospital is devoted exclusively to the treatment of Deformities and Diseases of the Nervous System.

Patients when unable to pay any part of the cost of board or treatment are admitted free; all others are expected to pay some portion of the expense, a special rate being made in each instance by the committee, based upon such information as they can obtain of the circumstances of the applicants.

The diseases treated are: all forms of bodily deformity, such as club-foot, joint diseases, and spinal distortions; and all nervous maladies, such as paralysis, chorea, and neuralgia.

The service for out-door patients is arranged as follows :—

On Mondays, Wednesdays, and Fridays, at 1 o'clock P. M., for Nervous Diseases.

On Tuesdays, Thursdays, and Saturdays, at 1 o'clock P. M., for Deformities.

To these all regular practitioners and students are admitted, upon application to the attending Medical Staff or Executive Committee.

Home for Consumptives.

OFFICE, 411 SPRUCE STREET.

(Supported by Voluntary Contributions.)

No fee is charged for admission of Consumptives to the Home, and no discrimination is made by reason of nationality, creed, or color. The patients are provided with medicines and medical attendance, clothing, bedding, food, fuel, and shelter.

The Home is not so much a hospital as a central ministering agency, from which, through a system of out-door relief, the poor consumptives in all parts of the city may be properly cared for. The sphere of this good work is thus capable of indefinite expansion, with no limit save of the funds provided it.

The institution is open daily, Sundays excepted, to the visits of friends of the patients and the public generally.

Superintendent : Rev. Samuel Durborow.

The Philadelphia Home for Incurables.

4700 WOODLAND AVENUE (DABBY ROAD).

Incorporated November 14, 1877.

The object is to provide a home for that class of sufferers whose diseases are pronounced incurable.

The members of the corporation are such persons as

contribute to the support of the Home one dollar or more annually. Life members may be constituted by the payment of twenty-five dollars, and honorary members by the payment of fifty dollars.

Application for admission may be made to any member of the Admission Committee.

Applicants must have been either dismissed from a hospital as incurable, or so pronounced by the attending physician, and in all cases must submit to the examination of a visiting physician of the Home.

Patients are provided for gratuitously, their support becoming a charge upon the resources of the Home. An admission fee of \$100 is required, except in extreme cases, where the terms are arranged by the Admission Committee, subject to the action of the Board of Managers.

If any inmate, by becoming curable, or for any other good reason, be deemed an unsuitable case for retention in the Home, such inmate may be discharged.

Friends' Asylum for the Insane,

FRANKFORD (TWENTY-THIRD WARD), PHILADELPHIA,

Is an unincorporated Institution, supported by members of the Society of Friends.

Its legal title is "The Contributors to the Asylum

for the Relief of Persons deprived of the Use of their Reason."

Annuities.—A mode of obtaining contributions by annuities, not much known amongst us, but familiar to Friends in England, has been agreed on by the Contributors. On paying any sum of money to the Treasurer, for the use of the Institution, interest of six per cent. thereon is annually to be paid to the annuitant; at whose decease the interest money ceases, and the principal remains the property of the Asylum. This mode will probably be convenient to many who are desirous of promoting the designs of the Institution, and yet do not prefer making any considerable donation during their lifetime.

The Institution is open for the reception of all classes of the insane, without regard to the duration or curability of the disease. It is proper to state, however, that idiots or persons affected with mania-à-potû are not considered suitable subjects for this Asylum.

Previous to the taking of a patient to the Institution, it is necessary to arrange the rate of board with a Manager (or, if more convenient, with the Superintendent at the Asylum), and to furnish a certificate of insanity from two or more respectable physicians, accompanied by a request signed by a legal guardian (or by a relative or friend in case the patient has no guardian) that the individual may be received into the Asylum.

For the payment of board, etc., a bond must be signed by some responsible persons as sureties, one of whom must reside in or near Philadelphia.

The charge for board includes washing, medicines, medical attendance, etc.

If private attendants are deemed necessary or desirable, they can at all times be furnished by a special arrangement with the Superintendent.

Visitors to the Asylum.—When near relations or particular friends of patients desire to be admitted to see their connections, application must be made to the Superintendent, who may allow such visits when circumstances will admit.

As the general admission of visitors would be improper and injurious to the patients, no persons, except as above, shall be admitted to the apartments occupied by patients, unless introduced by a Manager; but, on application to the Superintendent, they may be shown such parts of the building and appendages as are not so occupied.

In order to preserve quiet on the first day of the week, visiting on any account on that day, either in the house or on the premises, is prohibited, unless under very peculiar circumstances.

Clerk of the Contributors: Thomas Scattergood.

Treasurer: William Kinsey.

Clerk of the Board of Managers: John E. Carter.

A Private Hospital for Mental and Nervous Diseases.

CLIFTON HEIGHTS, DELAWARE COUNTY, PA.

This Institution, also, although not within the city limits, is so near them as to be properly mentioned in

connection with the objects of this work. It is a private Hospital for mental diseases, and derives its support from the payments made for board and medical care of patients.

No patient is received for a less period than three months. A certificate of insanity, signed by two physicians, and acknowledged before a magistrate, is invariably required.

A lady, well educated and of unexceptionable manners and deportment, resides in the same apartments, and devotes her time to the lady patients, thus securing them on all occasions a pleasant companion and a watchful friend.

A limited number of cases of the Opium habit can be admitted.

Access from Philadelphia by the Baltimore Pike, or by cars for Oak Lane Station, on Central Division of P. W. and B. Railroad, depot Broad and Filbert Streets, Philadelphia.

Consulting Physicians: Drs. Roberts Bartholow and Horatio C. Wood.

Assistant Physician: Dr. Willoughby Phillips.

Franklin Reformatory Home for Inebriates of Philadelphia, Pa.

LOCATED AT 911, 913, AND 915 LOCUST STREET.

The object of this Home is the thorough and permanent reformation of Inebriates. There are combined in this institution church privileges and home comforts; all that can be effected by the best medical treatment, careful nursing, and motherly affection, is here assured to fallen man; in fact, nothing is left undone that can be devised to rescue and permanently save the Inebriate from destruction. The usefulness and perpetuity of this Home depend solely upon the liberality of the Christian public.

The Pennsylvania Institution for the Deaf and Dumb.

N. W. CORNER OF BROAD AND PINE STREETS.

This Institution is supported by the interest of invested legacies and scholarship funds, by private subscriptions, and by the money paid for tuition of pupils. Of these, a large proportion are maintained by the State of Pennsylvania, a few by the State of New Jersey, a few by Delaware, and three on scholarships.

Terms of Admission.—Children are not received under

ten years of age. The annual charge is \$280, for which sum everything necessary is supplied, including the usual clothing of the Institution, boarding, lodging, washing, tuition, stationery, and medical attendance. When clothing is provided by the friends, only \$240 a year are charged.

It is very desirable that the deaf and dumb should be taught to form letters with a pen or pencil, and, if possible, to write the names of common objects, before they are sent to the Institution.

STATE OF PENNSYLVANIA.

Applicants for the bounty of the Commonwealth of Pennsylvania must be between the ages of ten and twenty years; and, before they can be admitted, satisfactory evidence must be furnished, from respectable persons of their neighborhood, of the pecuniary inability of the parents, and of the good natural intellect of the child, and its freedom from any constitutional malady that might incapacitate it for instruction.

On application to the Principal of the Deaf and Dumb Institution, Philadelphia, by letter or otherwise, a paper with printed questions and blank spaces for answers will be forwarded. After the paper has been filled out, it must be returned to the Institution. The applicant will soon be informed of the result of the application.

The number of pupils on the State fund is limited; new pupils can only be admitted when vacancies occur. The term allowed is six years, which may be extended to eight.

STATE OF NEW JERSEY.

Applications for the bounty of the State of New Jersey must be made to the Governor, "accompanied by the certificate of any two respectable individuals, attested before a magistrate, to the age, circumstances, and capacity of the deaf mute in whose behalf the application is made."

STATE OF DELAWARE.

Applications for the bounty of the State of Delaware must be made to the Associate Judges of the State.

**The Pennsylvania Institution for the
Instruction of the Blind.**

RACE STREET, FROM TWENTIETH TO TWENTY-FIRST STREET.

Indigent blind persons are admitted and maintained from seven to eight years at the charge of the State ; they

receive a good practical education in literature and music, and are also taught trades. Those who leave in good standing, but are indigent, receive an outfit not exceeding \$50, to aid them in getting such books, machinery, or apparatus as they may need.

Applications for the admission of pupils may be made to the Chairman of the Committee on Admissions, Edward Townsend, or to William Chapin, Principal, who will furnish the necessary papers. Children are not usually admitted under eleven years of age, nor if they have sufficient sight to be taught in the public schools.

Persons able to pay are charged \$300 per annum, or a less sum, according to their ability.

The States of New Jersey and Delaware provide for the instruction of their blind in this Institution.

The Pennsylvania Working Home for Blind Men.

No. 3518 LANCASTER AVENUE.

This is a recent organization for affording employment to blind mechanics and working-men. It proposes to

supply to these men material to be manufactured in the workshop of the "Home," and sold as in any regular business.

It is the first organization of this kind in America, and is now opening its doors to these helpless but willing laborers. It offers *employment*, not *alms*. With regular employment, it is believed that the larger number of its inmates and outside workmen will support themselves, while the amount that may possibly be needed to supplement the labor of the few will be but a tithe of what the public man is now called upon to give as charity. Men of business will recognize the distinction between aiding a willing laborer and supporting a pauper.

Pennsylvania Industrial Home for Blind Women.

NO. 3929 LOCUST STREET.

This Institution is supported by donations and by the board paid by inmates. A nominal sum of \$2 per week is charged.

A letter addressed to the President, to the Recording Secretary, or to the Chairman of the Admission Committee (Mrs. S. B. Rowley, 1720 North Eighteenth Street), in regard to any applicant for admission, will receive a prompt reply.

HOSPITALS FOR LYING-IN AND DISEASES OF WOMEN.*

The Preston Retreat.

HAMILTON STREET BETWEEN TWENTIETH AND TWENTY-FIRST STS.

This Institution, which is supported by an income from estates left by the late Dr. Jonas Preston, is a lying-in charity for married women of good character, but in indigent circumstances, who are near the time of their confinement, where they may be received and provided with proper obstetrical aid for their delivery, and with suitable attendance and comforts during the period of their convalescence.

Patients are admitted about two weeks before the expected time of their confinement, and are allowed four weeks in which to convalesce. Since each applicant is required to give references as to character, and furnish other proofs of her respectability, and, after becoming an inmate, is under observation for at least six weeks, this Institution is enabled to supply the community with healthy and trustworthy wet nurses.

Women desiring to enter this Institution as patients are requested to make personal application at the Retreat at least one month before the expected time of their confine-

**The Philadelphia Lying-in Charity and
Nurse School.**

126 NORTH ELEVENTH STREET.

Its objects are the training of nurses, and the assistance of poor and deserving women in childbed. Medical aid is also afforded to women suffering from diseases peculiar to their sex.

Women in good health, between the ages of twenty-two and forty-four years, capable of reading and writing readily, desirous of devoting themselves permanently to nursing, may, if they wish to begin this service under the training and patronage of the Lying-in Charity and Nurse Society, apply, with testimonial of intelligence and moral character, to the Matron of the Nurses' Home, 126 North Eleventh Street.

Applicants for treatment at the Clinic for Diseases of Women should apply on Wednesday or Saturday morning at eight o'clock.

Citizens desirous of employing those nurses who have completed their term of service in the Institution, are informed that the Matron will always assist them as far as possible in procuring one, provided sufficiently early application be made to her at the Home, No. 126 North Eleventh Street.

Directory for Nurses.

HALL OF THE COLLEGE OF PHYSICIANS, N. E. CORNER THIRTEENTH
AND LOCUST STREETS.

The Directory for Nurses was established by the College of Physicians in May, 1882.

Its object is to keep a list of registered nurses who have been recommended by three physicians and three families for whom they have nursed. Each nurse records her name, address, age, the training school from which she graduated, or her other qualifications as a nurse, the class of cases she desires to take, and her rates of charge, by the day or week. The reports of the physicians and families for whom she nurses are also registered. This information is confidential as to the names of the persons giving it, but its general results are given to applicants for nurses.

The office of the Secretary is at the Hall of the College of Physicians, N. E. corner of Thirteenth and Locust Streets, and is open at all hours, day or night. Telephone number 3402.

The registration fee (paid only once by the nurse) is \$3.00.

The Directory does not regulate the prices asked by nurses, but only registers them. Patients must arrange with the nurses as to rates of payment and period of engagement.

FEES.

For furnishing information leading to the engagement of a nurse :—

Between 7 A. M. and 6 P. M.,	. . .	\$1.00
“ 6 P. M. and 10 P. M.,	. . .	2.00
“ 10 P. M. and 7 A. M.,	. . .	3.00
For wet nurses (uncertified),	. . .	5.00
“ “ (certified after careful medical examination),	10.00
For finding and sending a nurse an additional		1.00

The Seaside House for Invalid Women.

AT ATLANTIC CITY, N. J.

The object of the Institution is to provide at the seashore a place where invalid women of moderate means can spend a few weeks during the summer, and have not only the comforts of a home, but also the care of a physician and good nursing. It is intended for invalids only. It does not bestow its benefits without charge, but it preserves the self-respect of the recipient by furnishing them to her at a price which she is able to pay, although much below the actual cost.

It is open from about the first of June until the middle of September. Any invalid woman of moderate means and good character, likely to be benefited by a *short* stay at the seashore, can be admitted to the institution. Applications for admission are received in Philadelphia by the examining physician on Mondays, Wednesdays, and Fridays, between three and four o'clock P. M.

Patients too ill to apply in person to him, and those living at a distance, can apply by letter to the physician in charge, Atlantic City. Every application, whether personal or by letter, must be accompanied by a testimonial of good character.

A charge of four dollars per week is made for board, medicines, and medical attendance.

Railroad tickets to and from Atlantic City can be procured of the physicians at reduced rates. The length of time which each patient remains in the Institution is determined by the physician in charge, in accordance with the necessities of the case. As it seldom exceeds two weeks, vacancies constantly occur and are at once filled from the list of applicants in the order of their application.

No patient should ever start for Atlantic City until she receives a notice from the physician in charge that there is a vacancy.

Hospital of the Good Shepherd for Children.

RADNOR, DELAWARE COUNTY, PA.

Situated near Rosemont Station, Pennsylvania Central Railroad,
ten miles west of Philadelphia.

The government of this Hospital is vested in the corporation of the "Church of the Good Shepherd," Radnor.

The object is to provide a home and medical treatment, *chiefly for children*, in the Diocese of Pennsylvania, without reference to creed or country, according to the following classes:—

1. Sick children, and those convalescing from acute diseases, as well as children suffering from debility and failing health, caused by defective or improper sanitary conditions at their own homes.

2. Crippled children, past hope of cure, and therefore no longer retained in ordinary hospitals.

3. Children whose home has been broken up by the intemperance or desertion of father or mother.

4. Children, abandoned by both parents, brought to us by friends or relations, unable to find, immediately, a proper home.

5. Others besides children may be received if room and accommodations permit; *but children shall always have precedence.*

6. It is intended, also, in connection with the Hospital, to have one or more trained nurses to care for the sick, as such ministrations may be required in the neighborhood.

Pennsylvania Institution for Feeble-Minded Children.

POST OFFICE, MEDIA, DELAWARE CO., PA. R. R. STATION,
GREENWOOD, W. C. & P. R. R. FOUNDED APRIL, 1853.

This Institution is founded, in part, by private contributions, and in part by the board paid for private cases, as well as for others who are maintained from funds appropriated by the States of Pennsylvania, New Jersey,

and Delaware. The city of Philadelphia has also a fund, upon which sixteen children may be sent from the Children's Asylum of the Almshouse, by the proper committee, to the Institution.

The objects of this Institution are as follows :—

1st. To educate and train in schools and gymnasiums children of weak intellect.

2d. To develop their usefulness through domestic, shop, and farm industries.

3d. To furnish a hospital or asylum for more helpless cases of this infirmity.

A large farm is devoted to the buildings, and the Hospital or Asylum branch, now in course of erection, is at a distant point from, and in no wise connected with, the Educational Department.

Information may be obtained from the Superintendent, to whom all applications for admission should be addressed.

Children's Seashore House at Atlantic City for Invalid Children.

This Institution is open each summer from about June 15th until September 15th, and is designed for the treatment of invalid children of both sexes; without regard to creed, color, or nationality.

Any child suffering from a non-contagious disease, or from debility, and likely to be benefited by a short residence at the seashore, can be admitted to the House.

Applications for admission are received in Philadelphia by the Examining Physicians.

A charge of two dollars per week is made for board, washing, medicines, and medical treatment; but a limited number of free and partly paid patients are received, subject in each case to the approval of two Managers.

Accommodations have also been provided for mothers with sick infants. Each mother has for herself and child the exclusive use of a little cottage, so placed between the house and the beach as to combine the accommodations of the house with the benefits of the cool and invigorating atmosphere near the surf. The whole charge for a mother, with either one or two children in one of these cottages, is three dollars a week.

The above-mentioned rates are not applicable to cases admitted from public institutions; for these a charge nearer the actual cost of maintenance is made by special agreement.

Tickets to and from Atlantic City are furnished to patients and their attendants at extremely low rates.

The length of time which each child remains in the

Institution is determined by the Physician-in-Chief, in accordance with the necessities of the case.

Visitors are admitted daily, between 3 and 5 P. M.

GENERAL DISPENSARIES.

The Philadelphia Dispensary.

127 SOUTH FIFTH STREET.

This Institution was founded in 1786. It is supported by private contributions and by income from investments.

The Dispensary is open for patients from 9 A. M. to 5 P. M. daily except Sunday. The Apothecary Shop is open from 9 A. M. to 6½ P. M., and Sunday from 2 to 4 P. M.

The benefits of the Dispensary are bestowed upon all applicants where circumstances do not admit of their employing a physician without being burdensome, residing between the Delaware and the Schuylkill, and between the north side of South Street and the south side of Vine Street; the only exceptions being those suffering from delirium tremens or from venereal disease, and mere paupers.

The portion of the city above mentioned is divided into six districts, each of which is assigned to one of the Attending or "District" Physicians, who visit at their homes those unable to come to the Dispensary for treatment.

The benefits of the Obstetrical and of the Eye and Ear

Department are extended to applicants from all parts of the city without limitation.

The Obstetric Department for the treatment of diseases peculiar to women, and for furnishing physicians in confinement, is now located at the Dispensary in the rear building, second floor, and is open to patients from 11 to 12 o'clock in the morning and at 6 in the evening.

The Northern Dispensary of Philadelphia, for the Medical Relief of the Poor.

608 FAIRMOUNT AVENUE.

The Dispensary is open daily; during the week, from 8 A. M. to 1 P. M., and 3 to 7 P. M.; on Sundays from 11 A. M. to 1 P. M.

All recommendations from contributors must be taken to the physicians in whose district the patient resides.

No person shall be deemed objects of this charity but

such as are necessitous, and not proper objects of the Guardians of the Poor.

Persons who go to the Dispensary for advice need not obtain a recommendation; but are required to report themselves until discharged, or they cannot again be prescribed for.

Lying-in Department.

For the purpose of extending the benefits of the Institution, the Managers have established a Lying-in Department, for attending respectable poor married women at their own homes, subject to certain regulations.

NOS. 1518 AND 1520 LOMBARD STREET.

This Institution is supported altogether by voluntary contributions. It is under the control of a Board of twenty-four Managers, elected annually by the contributors. As the name indicates, the original plan calls for a Hospital, a Home for Incurables, and a Dispensary for gratuitously supplying the deserving poor with medical advice and medicines. The last mentioned is the only part now in efficient operation.

The distinctive feature of the charity is that each physician confines his attention to a specific class of affections.

No. 923 LOCUST STREET.

The Dispensary is open daily (Sundays excepted), at 11 A. M., for the reception of patients.

This Institution is under the control of a Board of Managers, and is supported by voluntary contributions.

The Hospital possesses a complete system of baths, and offers unusual advantages to those requiring such treatment.

THE BATHS.

The Bathing facilities of this establishment, having been greatly enlarged and perfected, are now open and ready for patients sent there by the medical profession. They are under the supervision of an experienced balneologist, and are for such persons only as are sent by their medical attendants, with instructions of what form of baths they are to receive. They are intended to fill the place of the many unscientific bathing institutions where patients are often promiscuously steamed, overheated, or unduly chilled, and more harm done by them than good accomplished.

The following are the forms of baths administered :—

Vapor bath (simple) ; medicated liquid bath (alkaline, acid, etc.) ; hot-air bath (Turkish) ; vapor bath (Russian) ; electro-vapor bath ; medicated vapor bath.

Liquid Baths.—Potassium iodide, potassium sulphide, sodium salicylate, salts of iron, iodine, bromine, mercury bichloride, mercury biniodide.

Acid.—Muriatic, nitric, sulphuric, sulphurous, carbolic, salicylic, boracic.

Alkaline.—Sodium bicarbonate, sodium biborate, sodium carbonate, potassium carbonate.

Emollient.—Starch, gelatine, bran, Iceland moss, flaxseed, etc.

Astringent.—Alum, tannin, ferric salts, acetic acid, gallic acid, matricaria, sage, etc.

Vapor Baths Medicated.—Sulphur, arsenic, tar, mercury and its salts, naphthol, carbolic acid, iodoform, essential oils, balsams, etc.

BATHING HOURS.

Females, 8 to 9½ A. M.; Males, 8 to 9½ P. M. Daily, except Tuesdays, Thursdays, and Sundays.

Northeastern Kitchen, 1233 Leopard Street.

Southern Kitchen, 1719 South Ninth Street.

Branches of the House of Mercy, 411 Spruce Street.

Southwestern Kitchen, 768 South Nineteenth Street.

A sick diet kitchen is a dispensary, not of medicine, but of that delicate and nourishing food which is scarcely less valuable, and without which medicine and medical attendance can avail but little. In it are daily prepared and distributed gratuitously to the sick poor, without reference to creed or race, beef-tea, broths, soups, custards, puddings, jellies, preserves, crackers, fruits, and various dishes, in which cornstarch, gelatine, tapioca, sago, etc., are employed as ingredients; these and other articles of diet are issued according to the requirements of each special case. Care is exercised in preparing the food sent

out, and in seeing that the quality of the material used is unexceptionable.

This agency selects the sick poor as especial objects of relief, and through it large numbers of needy invalids can be helped in the most effective way at comparatively slight expense. To the ordinary soup-house it is what the Sanitary Commission was to the army commissariat.

These Diet Kitchens are supported entirely by voluntary contributions.

Christ Church Hospital

Is really a church home. The building is situated on Belmont Avenue, on the west side of the Schuylkill; the city office is at 217 South Third Street. This Hospital will accommodate about 100 inmates—"poor or distressed women of the communion" of the Episcopal Church.

Mode of Making Application for Admission.—For this purpose blank forms are, when requested, furnished by the Managers, upon which answers to the following points are required: Name of the applicant—Birth-place

—Date of birth—Baptized, where, when, and by whom—Confirmed, when, where, and by whom—Communicant, in what church—Residence, with name of street and No. of house—Married or single—Children now living, and, if any, their names and residences. There is also provided ample space on the forms for recommendations of an applicant. It is especially necessary that their commenders should give their own addresses, in order that the Managers may make due inquiry into the suitableness of an applicant. It is proper to state, that the will of the founder expressly prefers “clergymen’s widows before others” among the applicants for admission.

Application of admission should be made to the Managers.

This Institution, conducted by the Sisters of the Good Shepherd, has for its especial object the training of young girls in habits of piety and industry. For this purpose the pupils are obliged to devote a certain portion of each day to acquiring a knowledge of every kind of work suitable to their sex.

Every care is taken to impart a solid English education, and form their young minds to practice of virtue. Pupils are received without distinction of creed from the age of five to twenty years, provided they bear a good moral character.

The terms for admission vary according to the means of the parents or guardians.

About seventy destitute orphan girls are received entirely free, and provided for by the Institution. The

State pays for the maintenance of one soldier's orphan, \$150.

This Society, through its several agents, visits the poor and destitute of the entire city; in all worthy cases gives them food, clothing, and fuel; aims to find them employment when needed; and by spiritual advice and encouragement endeavors to raise them up to help themselves. It

also procures homes either by adoption or apprenticeship for destitute and poor children.

The charities of this Society are saved from imposition by the visits of its careful and experienced agents to the homes of the applicants, and its usefulness is limited only by its means, which are solely derived from voluntary contributions.

The Female Society of Philadelphia for the Relief and Employment of the Poor.

NO. 112 NORTH SEVENTH STREET.

THE ORIGINAL HOUSE OF INDUSTRY.

Its object is to furnish employment during the winter season at the "House of Industry" to aged women and those with young children who cannot obtain other work. Care is taken not only to instruct them as seamstresses, but also by suitable reading to promote a higher tone of thought and feeling. A nursery department, well-warmed rooms, and a comfortable dinner are provided, and a small daily compensation given. Sewing and quilting are done to order, and articles made from the material furnished by the Society are sold in the store, which contribute slightly toward the expenses. All that are employed are visited and kept under care, their necessities being attended to when sick. Some out-door relief is also given to aged persons who are unable to work.

**Northern Association of the City and County
of Philadelphia for the Relief and Employ-
ment of Poor Women.**

No. 702 GREEN STREET.

The object is to provide work and relief for industrious poor women.

A room is provided where worthy women may work. Those who cannot leave home for any valid reason are supplied with work at home.

All receive a just recompense for their labor.

Bedford Street Mission.

No. 619 ALASKA STREET.

The specialties of this Mission are to discriminate thoroughly between the deserving poor and impostors and professional beggars ; to prevent pestilence, and the spread of epidemics, by furnishing the means of cleanliness for persons and premises, and enjoining the use of the same ; to educate the young in habits of industry, morality, and religion ; and thus, by increased labor and contributions, not only to alleviate suffering and poverty, but to lessen the evils of pauperism.

Day School, Sunday School, Industrial School for girls, nights' lodgings, free baths, distribution of food, etc.

Central Employment Association.

FOURTH AND GREEN STREETS.

The object is to give employment in sewing to worthy women. Garments thus made are distributed among the deserving poor.

The Young Men's Christian Association of Philadelphia.

HALL, S. E. CORNER FIFTEENTH AND CHESTNUT STREETS.

This Association is organized on an unsectarian basis to assist in caring for the young men who throng our streets and stores, warehouses, and workshops, by practical service in securing employment for the unemployed; providing boarding-houses for strangers and others; watching over sick and friendless young men; endeavoring to promote their religious, moral, and social welfare; offering facilities for intellectual improvement and social intercourse, where every effort is made to exclude evil influences.

In carrying out this object the following means are used:—

1. Bible-class and devotional meetings.
2. Lectures on useful and interesting subjects, lyceum, and social gatherings.
3. Reading room supplied with the best of reading, and parlor with piano, organ, etc., with a view to attract young men to spend their evenings.

4. Library for circulation and reference, and gymnasium for physical development.

5. Personal influence of its members in behalf of strangers and those who need counsel, friendship, and other assistance.

No. 422 SOUTH FRONT STREET,

(At Sailors' Home,)

For the relief of sick, disabled, and indigent seamen and their families, looking after their moral and religious welfare, and supplying them with food, clothing, and fuel

when in distress. Shipwrecked seamen are furnished with warm clothing, and aided to return to their distant homes when discharged from the hospitals, by giving them money to defray the expense, if necessary. Efforts are made to procure them employment on land when entirely disabled from going to sea.

Philadelphia Society for Alleviating the Miseries of Public Prisons.

NO. 1602 CHESTNUT STREET.

Among the objects of the Society are the frequent obligatory visits of members of the "Acting Committee" to prisoners in their cells; also of the agents appointed especially to inquire into the physical needs of convicts about to leave the prisons, and to afford what advice and aid they can in clothing and means to reach a distant home, or to procure employment in the city or vicinity; and additionally, in the County Prison, to interfere in behalf of the friendless untried prisoner, and to settle differences that have led to imprisonment on trifling charges.

Pennsylvania Society to Protect Children from Cruelty.

ROOMS, 1406 CHESTNUT STREET.

(Second Story.)

It is the earnest wish of all good citizens to shelter the younger members of the community from cruelties against

which they are powerless to protect themselves. Adequate laws already exist for the protection of children, but the police force is necessarily occupied with the most obvious and gravest cases of crime. Hitherto no friendly and powerful hand has been habitually extended to rescue these little ones from lives of misery and danger ; to place them under the shield of the law, and where natural protection has failed, or has been transformed into brutality ; to bring them, by an order of the Court, under the merciful care of some orphan home or other sanctuary provided for the desolate and oppressed. To perform these kindly offices, the Society to Protect Children from Cruelty has been lately organized. Its members entreat the co-operation of their fellow-citizens in its aims, and their generous contributions toward the fund necessary for the discharge of the duties it has undertaken to fulfil.

Annual contribution five dollars. Life membership fifty dollars.

Complaints.—A book is kept at the office of the Society for registering complaints and bringing cases of cruelty to the notice of the officers, who will take steps to arrest the offenders, or to prevent a repetition of the offence.

Secretary,

SAMUEL J. LEVICK.

The Fuel Savings Society of the City and Liberties of Philadelphia.

This Society, through its receivers, who are located in various sections of the city, and serve without compensation, receive sums, however small, from those whose circumstances will not enable them to purchase a supply of fuel in the season when plenty of it is in the market (except dealers in coal and keepers and inmates of houses of immoral character, including taverns), and returns them coal during the winter at a price below its cost, the deficiency being made up from the Society's funds. It is for the *exclusive benefit of the depositors*, who are thus encouraged to economy and self-dependence. By a provision in the charter, no officer or other member of the Society can receive directly or indirectly any compensation for services rendered.

The Grandom Institution.

This Institution was established under the will of Hartt Grandom, who left a letter of instructions to his executors, expressing a wish that they should transfer to an

incorporated or benevolent society all the ground-rents he might own at his decease, and other suitable property, so as to make the clear annual income about fifteen hundred dollars, to be an annual permanent fund, to alleviate the most prudent of the poor (but not the intemperate) in procuring fuel, clothing, and other necessities, which such persons want in winter, of which only the income should be expended, and not to be lessened, but remain to produce a regular annual income for said purpose.

He in like manner further declared that he had long desired that a society were established in the city of Philadelphia, composed of discreet members, who feel an interest in the moral and religious welfare of young men who arrive at manhood and want assistance to commence the various vocations they have learned, and whose parents are unwilling or unable to aid them, whereby they sustain loss; and feeling it to be his duty to commence such an institution, he directed that, if an incorporated or other society should be formed at his decease or within one year thereafter, such as should be approved by his executors and those whom they should consult, and embrace the views of the testator, a conveyance should be made to it, either of the real or personal property, worth about twenty thousand dollars.

These provisions were duly carried out by the organization of a society.

The Board of City Trusts,

Created by a law enacted June 30, 1869, is composed of twelve gentlemen, appointed by the Judges of the Supreme Court of the State and the Courts of Common Pleas. The Mayor of the city, and the Presidents of the Select and Common Councils, are *ex-officio* members of the Board. It holds its meetings on the second Wednesday of each month.

The following institutions are under its charge: GIRARD COLLEGE FOR ORPHANS, and WILLS HOSPITAL FOR THE BLIND AND LAME. The Directors of the City Trusts also have charge of all the Charitable Trusts—more than twenty in number—of which the Corporation of the City of Philadelphia is the Custodian.

The Pharmaceutical Examining Board.

This Board is appointed by the Mayor for a term of three years, in conformity with an act of the Legislature,

approved April 4th, 1872. Its duties are to examine all persons who wish to conduct the Apothecary business in Philadelphia (except graduates of an incorporated College of Pharmacy) as to their qualifications therefor, and to issue certificates to them and to "qualified assistants" who have passed a satisfactory examination, and to register the same.

The following Board was appointed by Mayor Smith in May, 1884:—

- Dr. LAWRENCE WOLFF, *President*,
N. W. corner Twelfth and Chestnut Streets.
J. E. HAYES, *Secretary and Treasurer*,
S. W. corner of Broad and Walnut Streets.
HIBBERT P. JOHN, 242 Chestnut Street.
J. T. SUPPLEE, N. E. corner Thirteenth and Green Streets.
J. J. OTTINGER, N. W. corner Twentieth and Spruce Streets.

The Board of Health*

Assumed its present organization under an act of Assembly in 1818. *Its office is at the S. W. corner of Sixth and Sansom Streets, and is open from 9 A. M. to 3 P. M. daily (Sundays excepted). It consists of twelve members, four of whom come in in July of each year, to serve three years; being appointed, three by the Courts of Common Pleas, and one by the Select and Common Councils in convention.

* See page 138 for information in regard to the Municipal Hospital.

The members of the present Board are :—

<i>President,</i>	H. G. SICKEL.
<i>Secretary,</i>	A. A. HIRST.
Jos. G. Patterson,	W. H. Dutton,
Wm. B. Kinsey,	J. G. Richardson, M.D.,
R. A. Cleemann, M.D.,	W. H. Ford, M.D.,
T. L. Vanderslice,	Albert H. Dingee,
W. Allison,	M. A. Davis.

The Board holds stated meetings on Tuesday of each week at 12 M., from the 1st of October to the 1st of June; and daily, at the same hour, Sundays excepted, from the 1st of June to the 1st of October.

On the fourth Tuesday in January, annually, they elect vaccine physicians, according to "An ordinance to provide for gratuitous vaccination," passed in 1860. They also elect all their other officers on the first Tuesday in December.

Acting under the Board of Health, but appointed by the Governor of the State, are the following officers: One port physician, one Lazaretto physician, one health officer, and one quarantine master. The port physician is charged with the investigation of all suspected cases of infectious disease in vessels already in port, or in houses in the city. The Lazaretto physician resides at the Lazaretto (about ten miles below the city) from June 1 to October 1, and has charge of all matters relating to quarantine, under the provisions of the General Health Law of 1818.

Midwifery Reports.—By an act of Assembly, passed 1860, all persons practising midwifery in the city of Philadelphia are

obliged to leave a written memorandum of their names and residences at the Health Office; these are entered in alphabetical order in a register, to be open at all times during office hours to persons desirous of inspecting it. Changes of residence must be signified within thirty days at the office.

All births must be reported monthly, blank schedules being supplied by the office, giving the full name of each child (if any name has been conferred), its sex, color, the full name and occupation of the parent or parents, and the day and place of its birth. If no practitioner of midwifery is in attendance, the parent or parents must report the birth within one month thereafter. Ten dollars is the penalty for non-compliance with the rule.

Contagious Diseases.—Every person practising physic, and having a patient laboring under a pestilential or contagious disease (measles excepted), must make a written report forthwith to the Health Officer, under a penalty of not more than fifty dollars. The Board has adopted the following diseases as being contagious or pestilential: Asiatic cholera, relapsing fever, yellow fever, typhus or ship fever, cerebro-spinal meningitis or spotted fever, smallpox, varioloid, scarlet fever, and diphtheria.

Blanks for making said returns are furnished at the Health Office, on application by mail or in person.

Reports and Certificates of Death.—The law in regard to these matters is set forth in the following extract from "An Act for the Registration of Births, Marriages, and Deaths in the City of Philadelphia," passed March 8, 1860:—

"Sec. 3. That whenever any person shall die in the city of Philadelphia, it shall be the duty of the physician who attended during his or her last sickness, or of the coroner, when the case comes under his notice, to furnish within forty-eight hours after the death, to the undertaker or other person superintending the burial, a certificate setting forth, as far as the same can be ascertained, the full name, sex, color, age, and condition (whether

married or single) of the person deceased, and the cause and date of death.

"SEC. 4. That no person having the charge, as sexton, or otherwise, of any vault, burying-ground or cemetery, within the said city, shall inter or allow to be interred, or place or allow to be placed in any vault, burying-ground, or cemetery, the dead body of any person, nor shall any undertaker or other person remove the dead body of any person who has died in the said city, and has not been buried, to any place beyond the limits of the said city, without first procuring the certificate of the attending physician or of the coroner. To said certificate the undertaker or other person having charge of the body shall, as far as can be ascertained, add the occupation of the deceased; the place of birth; the ward, street, and number of the house in which the death occurred; the place and date of interment; and, where the deceased is a minor, the full names of the parents. In case any person shall die without the attendance of a physician, or if the physician who did attend at the time of the death refuses or neglects to furnish a certificate as aforesaid, it shall be the duty of the undertaker, or of any other person acquainted with the facts, to report the same to the Health Officer, who shall be authorized to give a certificate of death as aforesaid, provided it be not a case requiring the attendance of the coroner. Every sexton or other person having charge of any vault, burying-ground, or cemetery, within the said city, and every undertaker or other person who shall remove any dead body from or out of the said city, shall return the said certificates to the Health Officer before 12 o'clock M. on the Saturday of every week, accompanied by a schedule of the same, which returns shall be published weekly by the Health Officer, in such manner as may be designated by the Board of Health.

"SEC. 5. That in case any physician or the coroner shall refuse or neglect to furnish such certificate as aforesaid, he shall forfeit and pay the sum of five dollars for each offence; and every undertaker, sexton, or other person removing the dead

body of any person, or having charge of any vault, burying-ground, or cemetery, who refuses or neglects to perform any of the duties required by this act, shall forfeit and pay for every such offence the sum of twenty-five dollars: which sums shall in every case be recoverable in the manner and for the uses prescribed in an act entitled 'An Act for Establishing a Health Office,' " etc.

Disposition of Dead Bodies.—In order to the interment of a body, a certificate is absolutely necessary, signed either by a physician, by the coroner, or by the Health Officer. No written certificate can be received, unless it comes from the country, or from another State, as none such is admitted at the Registration Office.

Bodies brought from beyond the limits of the city for interment, if in charge of a city undertaker, must have his certificate appended to the certificate of death.

No disinterment or removal of a body from one grave or vault to another in the same burial-ground or cemetery, or from one burial-ground or cemetery to another, is allowed without a permit from the Health Office.

A permit from the Health Office is necessary for the removal of a body from the city for burial, and can be obtained by the undertaker, or other person having the body in charge, by application at the Health Office. Permits can be obtained after business hours and on Sundays at the residence of the Registrar, 1830 Poplar Street. The same rule applies to bodies merely in transit through the city—a permit must be obtained.

The Coroner

Is chosen by the electors of the county every three years. The present incumbent is T. J. Powers ; Dr. Henry F. Formad, Surgeon.

The Coroner's functions are sufficiently defined in the following extract from an act of the General Assembly, approved the 22d day of March, A. D. 1867, which declares—

“That it shall be the duty of the coroner of the city and county of Philadelphia to hold an inquest on the body of any deceased person who shall have died a violent death, or whose death shall be sudden ; provided that such sudden death be after an illness of less than twenty-four hours, and that no regular practising physician shall have been in attendance within said time, or

that suspicious circumstances shall render the same necessary, which said suspicions shall first be sworn to by one or more citizens of said city."

Violent deaths include homicides, death from criminal abortion, infanticides, suicides, and deaths from any kind of accident—such as injuries from having been run over in the street, from machinery, from falls, burns, scalds, or accidental poisoning or drowning, etc. In any of the above or like cases, it is the duty of the physician to refuse to give a certificate of death. The coroner should at once be notified.

When a physician, attending a person who has been injured by the criminal act of another, discovers that his patient is in imminent danger of death, in order that justice should be done, it is his duty to give notice to the Coroner of the fact, so that a dying declaration may be taken, and the offender arrested.

The duties of the physician in case of sudden death are clearly indicated by the act and proviso. No physician should give a certificate of a death when it is impossible for him to have exact knowledge of its cause.

Notice should be sent to the Coroner's office, at the Morgue, or to any police station.

An Act

For the promotion of medical science by the distribution and use of unclaimed human bodies for scientific purposes through a board created for that purpose, and to prevent unauthorized uses and traffic in human bodies.

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same:* That the professors of anatomy, the professors of surgery, the demonstrators of anatomy, and the demonstrators of surgery of the medical and dental schools and colleges of this Commonwealth, which are now or may hereafter become incorporated, together with one representative from each of the unincorporated schools of anatomy or practical surgery within this Commonwealth in which there are, or from time to time at the time of the appointment of such representatives shall be, not less than five scholars, shall be and hereby are constituted a board, for the distribution and delivery of dead human bodies hereinafter described, to and among such persons as under the provisions of this Act are

entitled thereto. The professor of anatomy in the University of Pennsylvania at Philadelphia shall call a meeting of said board for organization at a time and place to be fixed by him within thirty days after the passage of this Act. The said board shall have full power to establish rules and regulations for its government, and to appoint and remove proper officers, and shall keep full and complete minutes of its transactions, and records shall also be kept under its direction of all bodies received and distributed by said board, and of the persons to whom the same may be distributed, which minutes and records shall be open at all times to the inspection of each member of said board, and of any district attorney of any county within this Commonwealth.

SECTION 2. All public officers, agents, and servants, and all officers, agents, and servants of any and every county, city, township, borough, district, and other municipality, and of any and every almshouse, prison, morgue, hospital, or other public institution having charge or control over dead human bodies required to be buried at the public expense, are hereby required to notify the said board of distribution, or such person or persons as may from time to time be designated by said board, or its duly authorized officer or agent, whenever any such body or bodies come to his or their possession, charge, or control, and shall, without fee or reward, deliver such body or bodies, and permit and suffer the said board and its agents, and the physicians and surgeons from time to time designated by them, who may comply with the provisions of this Act, to take and remove all such bodies to be used within this State for the advancement of medical science; but no such notice need be given, nor shall any such body be delivered if any person, claiming to be and satisfying the authorities in charge of said body that he or she is of kindred or is related by marriage to the deceased, shall claim the said body for burial, but it shall be surrendered for interment, nor shall the notice be given or body delivered if such deceased person was a traveller who died suddenly, in which case the said body shall be buried.

SECTION 3. The said board, or their duly authorized agent,

may take and receive such bodies so delivered as aforesaid; and shall, upon receiving them, distribute and deliver them to and among the schools, colleges, physicians, and surgeons aforesaid in manner following: Those bodies needed for lectures and demonstrations by the said schools and colleges, incorporated and unincorporated, shall first be supplied, the remaining bodies shall then be distributed proportionately and equitably, preference being given to said schools and colleges, the number assigned to each to be based upon the number of students in each dissecting or operative surgery class, which number shall be reported to the board at such times as it may direct. Instead of receiving and delivering said bodies themselves, or through their agents or servants, the board of distribution may from time to time, either directly, or by their authorized officer or agent, designate physicians and surgeons who shall receive them, and the number which each shall receive. *Provided always, however, That schools and colleges, incorporated and unincorporated, and physicians or surgeons of the county where the death of the person, or such person described, takes place shall be preferred to all others. And provided, also, That for this purpose such dead body shall be held subject to their order in the county where the death occurs for a period not less than twenty-four hours.*

SECTION 4. The said board may employ a carrier or carriers for the conveyance of said bodies, which shall be well enclosed within a suitable encasement, and carefully deposited free from public observation. Said carrier shall obtain receipts by name, or, if the person be unknown, by a description for each body delivered by him, and shall deposit said receipt with the secretary of the said board.

SECTION 5. No school, college, physician or surgeon shall be allowed or permitted to receive any such body or bodies until a bond shall have been given to the Commonwealth by such physician or surgeon, or by or in behalf of such school or college, to be approved by the Prothonotary of the Court of Common Pleas in and for the county in which such physician or surgeon shall reside, or in which such school or college may be situate,

and to be filed in the office of said prothonotary, which bond shall be in the penal sum of one thousand dollars, conditioned that all such bodies which the said physician, or surgeon, or the said school or college shall receive thereafter shall be used only for the promotion of medical science within this State, and whosoever shall sell or buy such body or bodies, or in any way traffic in the same, or shall transmit, or convey, or cause to procure to be transmitted or conveyed said body or bodies to any place outside of this State shall be deemed guilty of a misdemeanor, and shall, on conviction, be liable to a fine not exceeding two hundred dollars, or be imprisoned for a term not exceeding one year.

SECTION 6. Neither the Commonwealth, nor any county, nor municipality, nor any officer, agent, or servant thereof, shall be at any expense by reason of the delivery or distribution of any such body, but all the expenses thereof, and of said board of distribution, shall be paid by those receiving the bodies, in such manner as may be specified by said board of distribution, or otherwise agreed upon.

SECTION 7. That any person having duties enjoined upon him by the provisions of this Act, who shall neglect, refuse, or omit to perform the same as hereby required, shall, on conviction thereof, be liable to a fine of not less than one hundred, nor more than five hundred dollars, for each offence.

SECTION 8. That all Acts or parts of Acts inconsistent with this Act be and the same are hereby repealed.

Approved June 13, 1883.

ROBERT H. PATTISON,
Governor.

PARKE, DAVIS & CO.,

Manufacturing Chemists,

Manufacture a full line of standard pharmaceutical preparations, including those that are official in the United States and foreign pharmacopœias, and such as are not thus recognized but whose value is attested by the experience of the medical profession. These preparations comprise:

**FLUID EXTRACTS, SUGAR-COATED PILLS,
GELATIN-COATED PILLS,
SOLID EXTRACTS, ABSTRACTS (Powdered Extracts),**

**Pink Granules, Concentrations, Effervescent Salts, Medicated Lozenges,
Roll Plasters, Spread Plasters, Glyceroles, German Tinctures,
Elixirs, Wines, Syrups, Collodions, Ointments, Cerates.**

These preparations are made after the latest and most approved methods, and are in every respect up to the recognized standards of pharmaceutical excellence and medicinal strength.

SPECIALTIES.

NORMAL LIQUIDS. By this name are known assayed fluid extracts. They comprise such drugs as have a distinct active principle in the form of an alkaloid or resinoid, and are guaranteed to be of uniform strength, and not subject to variations in the strength of the crude drug. They are as definite and constant in their strength as morphine, quinine, or other alkaloids, and are a desideratum in medicine.

EMPTY CAPSULES. These capsules are made of the finest French gelatin, and challenge comparison in all those particulars which commend this unequalled device for the exhibition of bitter and nauseous drugs.

SOLUBLE ELASTIC AND HARD FILLED CAPSULES. The former of these are so soft and elastic that their walls may be approximated without rupture and yet regain their original shape when the pressure is removed. As a means of administering nauseous oils, balsams, etc., these capsules are unequalled. The list comprises the majority of such balsams and oils in use, and range in size from 10 minims to a half ounce.

NEW REMEDIES. The enterprise of introducing to the profession drugs, particularly from the vegetable kingdom, which had escaped attention, may be said to have been inaugurated by Parke, Davis & Co. They were the first to conduct such introduction after a system, and are, indeed, still the only house thus intelligently and systematically engaged. They are, by common consent, the headquarters for all matters pertaining to the newer materia medica. For full information on this subject send to them for literature.

Parke, Davis & Co.'s list of specialties comprises, in addition to the above, the following:

**Pepsin, Pancreatin, Cascara Cordial, Chlor-Anodyne, Nitrite of Amyl
Pearls, Sanguis Bovinus Exsiccatus, Pressed Herbs,
Dialyzed Iron, Compressed Troches.**

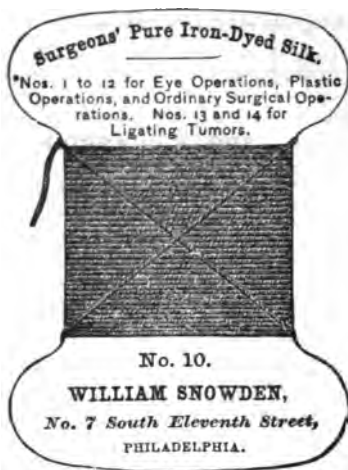

Special attention given to private formulae for pills ordered in lots of 3000 or upwards.

Warburg's Tincture, Ozonized Aromatic Liquid, Solution Chloride of Bromine Compound, etc.

J. B. MOORE, PHARMACIST, S. E. Cor. 13th and Lombard Sts.

I desire to call the attention of physicians to the fact that to guard against the oft uncertain strength and faulty condition of commercial preparations, I manufacture in my own laboratory the "*Fld. Ext. Ergot*," and all other extracts and pharmaceutical preparations which require care and skill in their manufacture, and a conscientious regard for the purity and freshness of the materials employed. I also keep on hand for physicians' prescriptions,

Squibb's Ether, Chloroform, *Fld. Ext. Ergot*, &c.

CARL L. JENSEN'S CRYSTAL PEPSIN.

Adopted by the U. S. Marine Hospital
Service.

This novel pepsin preparation has attracted the attention of the Medical Faculty from the earliest period at which it was introduced. It is now entering upon the fifth year of its existence, and has gained for itself a well-established position among popular and efficient remedies. It may be said without fear of contradiction that no other remedial form of the gastric ferments has won so many testimonials from the profession. Many of these could be quoted, not only from the United States, but also from Canada, Mexico, South America, Great Britain, Norway, Sweden, Denmark, Russia, Germany, Holland, Austria, and Australia.

Imitations of the **CRYSTAL PEPSIN** (name trademarked) have been produced and thrown on the market by various manufacturing chemists, thus reaping an unfair advantage from the time and money expended by the inventor in introducing it. Such imitations are inferior in character to the original, and lack its remedial power. A comparison of various productions of this class appeared in the **Phila. Medical Times**, July 28th, 1883, by Prof. Hugo Engel, M.D., Fellow of the American Academy of Medicine, in which the superiority of Jensen's **CRYSTAL PEPSIN** is clearly shown.
